题目①

Dear Jim,

I have read your records of screen time for fun. Your screen time dropped to 30 minutes on Day 3, then went back up to 80 minutes by Day 7. You had a good start but your management seemed out of control later. Here are my suggestions for you.

First, set a 40-minute limit on screen time for fun every day. You can keep your phone away most of the time. Second, try to form the habit of reading physical books.

I hope you can do better in the following two weeks.

Yours,

Li Hua

题目②

The thinking habit that benefits me most is having a growth mindset. I used to be afraid of making mistakes. Then I learned about the growth mindset: mistakes are not failures but chances to learn. I started to be brave enough to try new things without worrying about getting things wrong. Now if I make a mistake, I write it down, ask the teacher for help, and try again. I am always willing to challenge myself and learn from my mistakes.

第一节 听下面三段对话或独白。每段对话或独白后有两个小题，从每题所给的 A、B、C 三个选项中选出最佳选项。

请听一段对话，完成第 1 至第 2 小题

M: Excuse me. Could you tell me where the city library is?
W: Sure. Go past three crossroads until you reach Washington Street. And then turn right. It's on the corner, across from the bank.
M: Thanks. I've only been in town for a few days, so I'm still new to this place.
W: Oh, I totally understand. We moved here three months ago, and I'm sure you'll soon find your way around.

请听一段对话，完成第 3 至第 4 小题

W: Leo, welcome to my hometown! It's changed a lot, hasn't it?
M: Yeah. My dad said it used to take a whole morning to drive here from the station. Now it's only about an hour.
W: The new highway really speeds things up.
M: And the streets look much wider now.
W: Right. They've built a new bridge across the river too.
M: Nice! So what happened to the old factory area?
W: It's been turned into a theme park.
M: Wow, that's such a cool change! I really love your hometown now.

请听一段独白，完成第 5 至第 6 小题

(W reads first, then M.)

Good afternoon, everyone! Here's good news about a new program. In the program, there will be a math study support service. It's totally free. We hope you can come and join.

Starting this week, we offer help on Tuesday and Thursday every week. It's from 3:00 pm to 4:00 pm in the reading room. Our student helpers are good at math. They will work with you one-on-one or in small groups. Isn't it great? They can help with your math homework, projects, and test preparations. So it's a great chance to improve your math. Also, the reading room provides a very **comfortable** environment. You can ask any questions without feeling nervous.

We believe you'll find it helpful and rewarding. So why not come and enjoy your study time?
